

Covenant between _____ and The Seventh Day Initiative

_____ and The Seventh Day Initiative are joining in a covenant to care for God's gift of resources. _____ will aim to significantly reduce its energy use. To assist, Seventh Day will provide it with tools, monitoring, and technical and peer support.

_____ will aim to:

- implement measures with the objective of reducing its electricity and natural gas use by 25% to 40%,
- engage a third or more of its members in reducing their energy use by a seventh or more,
- track these energy conservation achievements, and
- briefly document how it reduced its energy use and engaged its members to do the same.

The Seventh Day Initiative will aim to:

- help the congregation develop and implement its energy conservation plan,
- help the congregation develop a plan to engage and equip its members to conserve,
- facilitate face-to-face or phone meetings with the other *Seventh Day* congregation representatives,
- track its quarterly energy use and report back to it on progress,
- provide access to the online Household Energy Survey to monitor household energy progress,
- help the congregation document its work in a brief case study, and
- publicize its story to inspire and guide other congregations.
